

# Recently Engaged Couples

Our Recently Engaged Couples list is unlike any other list we sell. There are about 500,000 weddings on the database across the US at any one time.

The list is created by compiling the data from bridal registries all over the country. When a bride goes to register the date for her wedding she leaves her name, address, phone number and wedding date. In some areas the list is amended with information from newspaper space ads. Each of these sources collects the same information: name, address, phone number and wedding date. It is this list that our wedding service clients are using to grow their businesses. We have photographers, limousine companies, bridal-wear, wedding planners, travel agents, salons and make-up companies using this list every month.
